Notes:

- Overall great start! Looks super clean and responds well to mobile view
- Liking the colors and photos just maybe more variation and accents!
 - Content is going to be more fleshed out
 - Adding in more images on the home page and the stitches page
 - More examples of in-process needlepoints and applications of the finished pieces
(where they can go/what they can be made into)
- The supplies page looks great and the links to where to buy are amazing!!
 - Add more of where to buy pre-painted canvases
